MEMORANDUM FOR:
Special Assistant to the DDCI
FROM: Director of Central Intelligence
SUBJECT: NAPA Personnel Objectives and Solutions

In conjunction with our NAPA reviews, would you take the list of personnel objectives and solutions which the DDCI and I worked out last week, and which he revised on the 30th, and bounce those solutions against the recommendations in the NAPA Report which we are reviewing in the Executive Committee. In short, if we go through all of the NAPA Report recommendations, will we address each of the solutions that the DDCI and I have agreed should be implemented? If not, the three of us will have to decide how we introduce these other items into the Executive Committee discussions.
